# Future Seekers – Business Analytics Nanodegree Program

# **Build Data Dashboards**

Issa Alhilali

# **Future Seekers & Udacity**

- In this project we will uncover insights from a set of data visualized on a canvas.
- It contains information about Departure delay flights and their reasons, as well as the airlines that canceled flights during 2015.
- Visualize this data to create different types of control panels below

# Airlines of flights the delayed in US states for the year 2015
